Missing fields:

10. Bidding Feedback

Address 1 & 2 _ **DONE**

Going forward every address needs to have Address 1 and 2. Most commercial buildings are usually part of a complex. Each unit within the complex is identified by one of the following:

1. Building #
2. Suite #
3. Floor #
4. Apartment #
5. Etc.

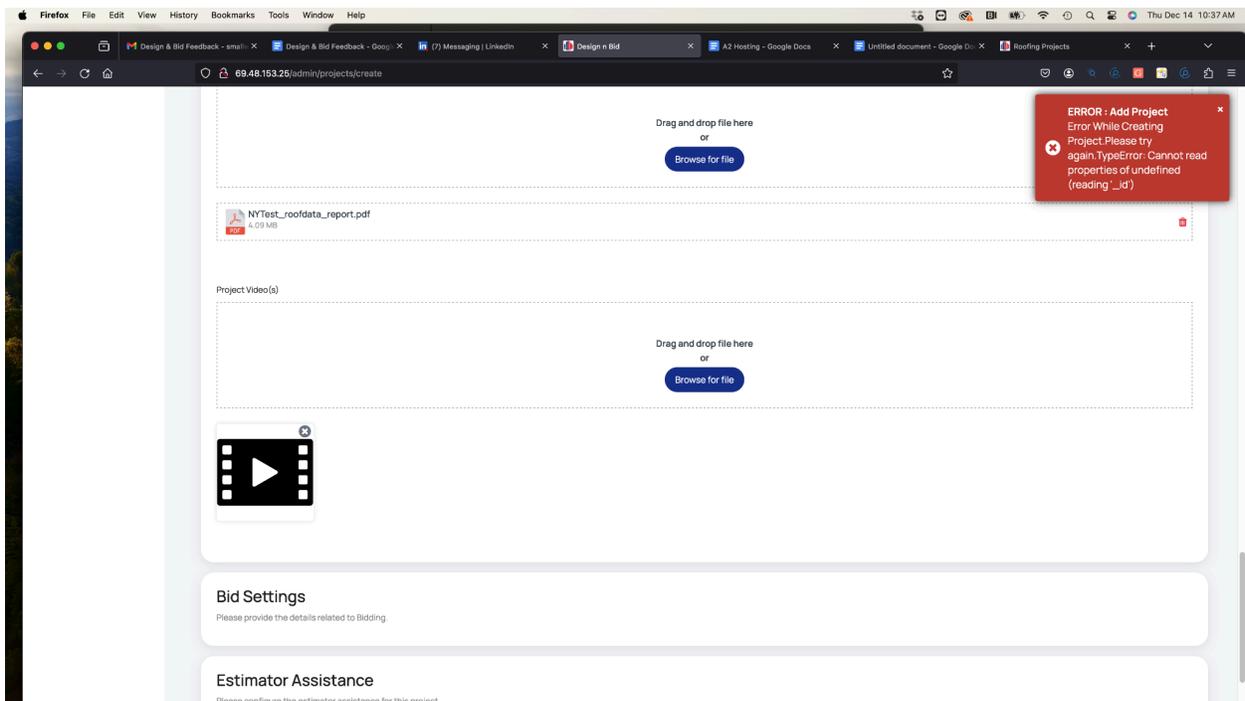

These are the Address 2 of the address.

Example:

Address 1: 120 Main St

Address 2: Building #12

Add Project Error

The Browse Project Document button gives an error. - **FIXED**

Remove Project Notes. This is to be used to add notes to a project during the bidding period. Let say some important information was missing from the project, Project Notes

feature will be used to communicate the missing information. Admin should be able to add as many notes as required for a project.
