

National Coverage. Local Service. Trusted Results.™

From emergency repairs to proactive replacements, Nations Roof delivers certified, warranty-compliant roofing services that scale with your needs — whether you manage one facility or a national portfolio.

WHY NATIONS ROOF?

Nations Roof delivers B2B commercial roofing solutions with the **scale of a national provider** and the **care of a local partner**. We serve clients **coast to coast,** providing consistent, responsive support whether you manage a single site or a nationwide portfolio.

From preventive maintenance and repairs to replacements and emergency response, we offer **full lifecycle service** tailored to each roof, property, and industry. Our 40+ locations of 100+ certified crews works in complex environments — from healthcae settings and schools to industrial plants and data centers — ensuring consistent quality and accurate data without the variability of subcontractor work.

What sets Nations Roof apart isn't just our reach — it's how we work. We combine hands-on service with proactive communication, a dedicated National Account Manager for multi-site clients, local branch responsiveness, and secure access to facility records, warranty details, and service history through our customer portals. For emergencies, our **National Service Center provides 24/7/365 coordination** to deploy crews quickly.

With thousands of successful projects and a safety culture backed by our **industry-leading EMR,** we help protect your people, property, and peace of mind.

NATIONS ROOF

Full Lifecycle Roofing Solutions — Built for Your Business

From prevention to emergency response, we deliver certified, warranty-compliant service for every stage of your roof's life.

Preventive Maintenance & Inspections (RoofCare)

Protect your investment and avoid costly surprises. Our RoofCare programs provide scheduled inspections, detailed condition reports, and proactive repairs — helping extend roof life, reduce emergency calls, and maintain warranty compliance.

Ideal for facility managers and property owners who want fewer emergencies and predictable budgets.

Emergency Repairs & Leak Response

Available 24/7/365 through our National Service Center. We deploy the nearest certified crew to address leaks or damage quickly, safely, and without disrupting your operations. Photographic documentation and job status updates keep you informed from dispatch to completion.

The go-to choice for store managers and building engineers who need fast fixes without business disruption

Roof Replacements & Reroofs

We manage every detail — from assessment and design to material sourcing and installation — ensuring minimal downtime, predictable costs, and certified, warranty-compliant results.

Best suited for property owners and developers looking for reliable, on-time capital projects.

Sustainable & Energy-Efficient Solutions

Upgrade your roof for long-term performance and lower operational costs. Options include reflective "cool roof" systems, vegetative roofs, solar-ready installations, and energy-efficient materials.

A smart option for owners seeking energy savings and companies with ESG goals.

Fall Protection Installations & Upgrades

Keep your people and contractors safe while meeting OSHA requirements. We design and install compliant systems, integrate them into your facility safety plan, and maintain them for ongoing protection.

Trusted by facility operations teams and safety managers focused on compliance and risk reduction.

Additional Capabilities

- New Construction Roofing – For select commercial projects, we partner with GCs and owners to deliver certified, warranty-compliant installations.
- Specialized Systems – TPO, EPDM, PVC, metal, modified bitumen, Fluid-Applied Coatings, and more.
